

# C-6 Color Chart

Furnishings  
for  
Public  
Spaces

All standard RPI powder coat colors are polyester based for a smooth, glossy finish with excellent exterior light and weathering resistance. Other powder manufacturers' standard RAL colors are available for an upcharge.

The concrete colors are used in our concrete line and for pedestals specified in many seating designs. All colors are approximate. Actual color samples are available upon request.

## Powder Coat Colors for Metal
