Spaces

## Laminated Maple Stacking Chairs

These elegant stacking chairs bring with them a level of style uncommon in more typical stacking chairs. Constructed of laminated maple and designed for indoor use, they're available in three different models. Each model features a unique and eye-catching etched design on the seat and back.

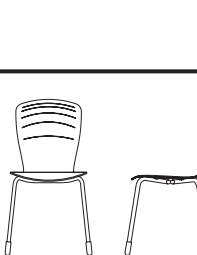

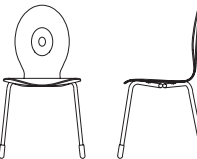

The chairs are as practical as they are beautiful. Solid construction ensures longevity, even in high-traffic public areas. In addition, the chairs can easily be stacked away when not in use, allowing for more flexible utilization of space.

Four plies of maple veneer and three of gum are formed into a seat and back with a nominal thickness of 0.375". The frame is formed of .875" diameter steel tube with a 14 gauge wall. Injection-molded ABS glides protect floors from damage.

To specify model:  
Hippo, Zoom or Loop

To specify color:  
See laminate wood  
stains on color page  
C-7.

- W-11 Natural
- W-17 Walnut
- W-27 Bone
- W-29 Black
- W-42 Avocado
- W-63 Red Currant
- W-94 Royal Blue

Specifications	Model	Overall Size	Approx. Weight
Hippo 	CH-301	19.25" w x 19.5" d x 33.75" h	15 lbs
