Windermere Waste Receptacle

The Windermere Collection complements transitional to traditional environments through its style and gracious elegance. Available with steel slats, Windermere provides maximum flexibility by adapting to the needs of every environment.

The supporting structure is 16 gauge 3/4" x 2" oval-shaped steel tubing. The flat steel slats are 3/16" x 2" solid steel bar. The four anchoring holes are 5/8" diameter to accommodate your 1/2" diameter bolt. All units are e-coated and powder coated. Tops are available in three materials: dark grey hardcoat anodized aluminum, charcoal-colored polyethylene, and fiberglass in smooth semi-gloss or rough stone finish.

There are two styles - top unload and side unload. All top unload units come standard with an internal ring to support trash bags. An optional rigid polyethylene liner with hand holes for easy lifting may be specified. The use of a liner reduces capacity to 28.3 gallons. The side unload unit has a side access door made of the same solid steel bar slats. The side door pivot is a 1/2" diameter solid steel rod supported through a full-height steel tube and fixed with solid bronze flanged bushings. The door is supplied with a spring-loaded latching device which can be easily locked with a padlock (not furnished) if needed to help prevent damage due to vandalism or theft. Side unload units come standard with a rigid poly liner. The side unload unit has a secure "fixed" top.

Specifications	Model	Overall Size	Top Material	Door	Capacity w/o Liner	Approx. Weight
Style A – Large opening top 	R410-27A-AL	21.25" dia x 36.25" high	Aluminum	No	39 gallons	92 lbs
	R410-27A-FG	21.25" dia x 36.25" high	Fiberglass	No	39 gallons	92 lbs
	R410-27A-WP	21.25" dia x 36.25" high	Polyethylene	No	39 gallons	92 lbs
	R410D-27A-AL	21.25" dia x 36.25" high	Aluminum	Yes	Std. with liner	107 lbs
	R410D-27A-FG	21.25" dia x 36.25" high	Fiberglass	Yes	Std. with liner	107 lbs
	R410D-27A-WP	21.25" dia x 36.25" high	Polyethylene	Yes	Std. with liner	107 lbs
Style B – Dome top w/ smaller opening 	R410-27B-AL	21.25" dia x 37.25" high	Aluminum	No	39 gallons	92 lbs
	R410-27B-FG	21.25" dia x 37.25" high	Fiberglass	No	39 gallons	92 lbs
	R410D-27B-AL	21.25" dia x 37.25" high	Aluminum	Yes	Std. with liner	107 lbs
	R410D-27B-FG	21.25" dia x 37.25" high	Fiberglass	Yes	Std. with liner	107 lbs
Style WA – Waste/ash 	R410-27-WA	21.25" dia x 36.25" high	Aluminum	No	39 gallons	92 lbs
	R410D-27-WA	21.25" dia x 36.25" high	Aluminum	Yes	Std. with liner	107 lbs
Style SL – Side Load Stone  Semi-gloss 	R410-27SL-FG	21.25" dia x 44.75" high	Fiberglass	No	39 gallons	95 lbs
	R410D-27SL-FG	21.25" dia x 44.75" high	Fiberglass	Yes	Std. with liner	109 lbs

To specify:

Indicate model no., top style, color and material.

To specify color:

For steel colors, see color pages C-6 and C-7. If fiberglass top is specified, indicate smooth semi-gloss finish or rough stone finish. For fiberglass colors, see color page C-8.

Options:

- Polyethylene liner (standard on units with side door)
- Fire retardant resin for fiberglass tops
- Chain to attach top to body (for top unload units)
- Rain cap available on some models
